DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

Certification Process

The guidelines for the state certification program are designed to ensure the following: accountability, consistency, and credibility of instruction, testing, and certification of first responders and public sector officials and employees in the State of Missouri.

Goals of the Certification Program:

1. To raise the level of fire protection for the State of Missouri.
2. To improve training and education for first responders and public sector officials and employees.
3. Establish minimum basic training standards for first responders and public sector officials and employees.
4. Issuance of certificates to persons who complete requirements for certification and pass the required state examinations.
5. To maintain records of persons who have attained state certification.

Driver Operator Core, Pumper, Aerial, Mobile Water Supply Certification is provided through the Missouri Department of Public Safety, Division of Fire Safety. This certification is internationally accredited by the International Fire Service Accreditation Congress (IFSAC) and the National Board on Fire Service Professional Qualifications (ProBoard). The Missouri Division of Fire Safety shall certify individuals at the levels of Driver Operator Core, Pumper, Aerial and/or Mobile Water Supply based on a combination of requirements and qualifications.

The Missouri Division of Fire Safety subscribes to the policy of nondiscrimination in areas of race, color, religion, sex, age, national origin, and the handicapped. Entry level qualifications are reviewed to ensure that each applicant meets the specified requirements.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

Driver Operator Course Guide

I. Approved Driver Operator Course

The *IFSTA, Pumping Apparatus and Aerial Driver/Operator, Third Edition* is the sole approved curriculum for Driver Operator Core, Pumper, Aerial and Mobile Water Supply certification eligibility.

When using the above curriculum, Driver Operator Core, Pumper, Aerial and Mobile Water Supply may be presented as a COMBINED COURSE.

II. Driver Operator Course Requirements

A. Driver Operator – Core course

- a. The course must be pre-approved by the Division of Fire Safety prior to course delivery.
- b. The following course instructor requirements must be met for course approval for students to be eligible for certification:
 - i. Lead and/or Assisting Instructors (must be approved by the Division of Fire Safety prior to course delivery):
 1. Certified by the Division of Fire Safety as Fire Service Instructor I or higher.
 2. Certified by the Division of Fire Safety as Driver Operator - Core.
 3. The Lead Instructor is responsible for maintaining and retaining course records.
 - c. The following chapters from the *IFSTA, Pumping Apparatus and Aerial Driver/Operator, Third Edition* must be delivered as a Missouri Division of Fire Safety approved Driver Operator Core, course. Chapters 1 through 4.

B. Driver Operator – Pumper course

- a. The course must be pre-approved by the Division of Fire Safety prior to course delivery.
- b. The following course instructor requirements must be met for course approval for students to be eligible for certification:

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- i. Lead and/or Assisting Instructors (must be approved by the Division of Fire Safety prior to course delivery):
 - 1. Certified by the Division of Fire Safety as Fire Service Instructor I or higher.
 - 2. Certified by the Division of Fire Safety as Driver Operator Core and Pumper.
 - 3. The Lead Instructor is responsible for maintaining and retaining course records.

- c. The following chapters from the *IFSTA, Pumping Apparatus and Aerial Driver Operator, Third Edition* must be delivered as a Missouri Division of Fire Safety approved Driver Operator Pumper course. Chapters 5-12, 14 and 15.

C. Driver Operator – Aerial course

- a. The course must be pre-approved by the Division of Fire Safety prior to course delivery.
- b. The following course instructor requirements must be met for course approval for students to be eligible for certification:
 - i. Lead and/or Assisting Instructors (must be approved by the Division of Fire Safety prior to course delivery):
 - 1. Certified by the Division of Fire Safety as Fire Service Instructor I or higher.
 - 2. Certified by the Division of Fire Safety as Driver Operator Core and Aerial.
 - 3. The Lead Instructor is responsible for maintaining and retaining course records.

 - c. The following chapters from the *IFSTA, Pumping Apparatus and Aerial Driver Operator, Third Edition* must be delivered as a Missouri Division of Fire Safety approved Driver Operator Aerial course. Chapter 16-20.

D. Driver Operator – Mobile Water Supply course

- a. The course must be pre-approved by the Division of Fire Safety prior to course delivery.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- b. The following course instructor requirements must be met for course approval for students to be eligible for certification:
 - i. Lead and/or Assisting Instructors (must be approved by the Division of Fire Safety prior to course delivery):
 1. Certified by the Division of Fire Safety as Fire Service Instructor I or higher.
 2. Certified by the Division of Fire Safety as Driver Operator Core and Mobile Water Supply.
 3. The Lead Instructor is responsible for maintaining and retaining course records.
 - c. The following chapters from *the IFSTA, Pumping Apparatus and Aerial Driver Operator, Third Edition* must be delivered as a Missouri Division of Fire Safety approved Driver Operator Mobile Water Supply course. Chapters 2, 13, and 15.
- E. Each student participating in an approved Driver Operator course must have the following materials:
 - a. *IFSTA, Pumping Apparatus and Aerial Driver/Operator, Third Edition.*
 - b. Missouri Division of Fire Safety "*Driver Operator Practical Skill Course Booklet*" for the appropriate level(s).

III. Procedure for Driver Operator Course Approval

- A. To conduct a Driver Operator Course, an "Application for Course Delivery" form detailing when and where the course is to be delivered, the levels to be delivered, course completion date, course instructors, and the person responsible for record keeping must be submitted to the Division of Fire Safety prior to the start of the course (included in this booklet).
 - a. After receipt of the "Application for Course Delivery" the application will be reviewed for approval. An official letter of approval or denial will be sent to the Lead Instructor of the course.
 - b. Students will not be eligible for certification testing without successfully completing a course approved by the Missouri Division of Fire Safety.
 - c. Courses will be approved only for departments, approved academies, educational institutions and training entities who are registered with the Division of Fire Safety.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- B. The Lead Instructor is responsible for maintaining all permanent course records. Course records must include the original "Driver Operator Course Training Record" and original "Practical Skills Summary" for each student.

The local authority having jurisdiction shall agree to an inspection of course records at a reasonable hour if deemed necessary by the Division of Fire Safety.

C. End of Course Exams

- a. **END OF COURSE EXAMS** are required for each discipline in Driver Operator NFPA 1002, with the student receiving a passing grade of at least 70% on each exam. These must be generated from the "Instructors Toolkit" from IFSTA.
- b. In the event a student fails the end of course exam, they must be given a second attempt to pass the end of course exam. The student must be given a different version of the exam than was initially taken.
- c. End of Course Exams:
 - i. Driver Operator – Core will consist of a minimum of 25 questions for the exam with a 30 minute time limit to complete.
 - ii. Driver Operator – Pumper will consist of a minimum of 50 questions for the exam with a 1 hour time limit to complete.
 - iii. Driver Operator – Aerial will consist of a minimum of 25 questions for the exam with a 30 minute time limit to complete.
 - iv. Driver Operator – Mobile Water Supply will consist of a minimum of 25 questions for the exam with a 30 minute time limit to complete.
- d. If the student fails the second attempt of an end of course exam, the student would be deemed as failed the course and would not meet the requirements for certification eligibility.

- D. The Lead Instructor must verify that the student has successfully completed the course and performed all of the practical skills during the course by submitting a copy of the completed student's "Driver Operator Course Training Record" and completed "Practical Skills Summary" to the Division of Fire Safety. Only students that completed all course requirements will be eligible for written certification testing and practical skills testing. This submission can be by fax, email or post service delivery.

Driver Operator Practical Skill Testing

IV. Application for Driver Operator Practical Skill Testing

1. For all levels, Driver Operator practical Skill testing is conducted after the conclusion of an approved course. Students must have mastered the required skills during the approved Driver Operator Course.
 - a. The Lead Instructor must contact the Division of Fire Safety after receiving course approval and prior to the start of the course to schedule the Practical Skill testing. This will ensure there are adequate evaluators available to meet the course needs.
 - b. The Lead Instructor must submit an “Application for Driver Operator Evaluator Confirmation” form to request a practical skill date and evaluators no later than 14 days prior to the requested exam date.

V. Assignment of Practical Skills Exam Evaluators

1. Supervising Evaluator

The assignment of the Supervising Evaluator for a specific Driver Operator Practical Skills examination is approved by the Division of Fire Safety. The Supervising Evaluator role is to serve as the administrator of the Practical Skills testing. Responsibilities include:

- A. Prepare a test site safety plan. (see section VI)
- B. Conduct a pre-test meeting with the assigned safety officer and the assisting evaluators.
- C. Conduct the Practical Skill Exam sign-in of the students.
- D. Read the exam instructions to the students.
- E. Conduct a pre-test walk-through with the assisting evaluators and the students.
- F. Manage the assisting evaluators.
- G. Administer any re-tests for students that failed a particular practical skill.
- H. Ensure all testing documents have been completed by assisting evaluators.
- I. Complete the “Practical Skill Exam Sign-off Form” for each student.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- J. Return all testing documents to the Division of Fire Safety within 7 calendar days after the completion of the Practical Skills Exam.

To serve as a Practical Skill Supervising Evaluator for a Driver Operator practical skills certification examination, individuals must meet the following criteria:

- A. Serves as an instructor for an approved agency; however, cannot have served as an instructor for the class to be tested.
- B. Be certified by the Division of Fire Safety as a Fire Service Instructor II or higher.
- C. Be certified by the Division of Fire Safety at the Driver Operator level they will be evaluating.
- D. Has attended and completed a level specific Driver Operator Certification Evaluator course.
- E. Agrees to abide by all of the rules and conditions stipulated by the Division of Fire Safety.
- F. Agrees to and signs an "Evaluator Code of Ethics" for each exam administered.

2. Skill Station Evaluators

The assignment of Practical Skill Station Evaluators is chosen through a mutual agreement between the Supervising Evaluator and the Division of Fire Safety. Skill Station Evaluators are predominately used to assist with practical skills testing by evaluating students at each skills station.

To serve as an evaluator for the Division of Fire Safety, individuals must meet the following criteria:

- A. Serves as an instructor for an approved agency; however, cannot have served as an instructor for the class to be tested.
- B. Be certified by the Division of Fire Safety as a Fire Service Instructor I or higher.
- C. Be certified by the Division of Fire Safety at the Driver Operator level they will be evaluating.
- D. Has attended and completed a level specific Driver Operator Certification Evaluator course.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- E. Agrees to abide by all of the rules and conditions stipulated by the Division of Fire Safety.
- F. Agrees to and signs an “Evaluator Code of Ethics” form for each exam administered.

The minimum number of required personnel to conduct a Practical Skill exam is:

- One (1) – Supervising Evaluator
- Two (2) – Skill Station Evaluators

The number of evaluators is determined by how many skills stations are going to be operated at the same time.

VI. Driver Operator Practical Skills Testing Procedures

1. Driver Operator Practical Skills Safety Testing Plan

- a. **During practical skills testing, the safety of all candidates, evaluators, and support staff is of primary importance.** The Lead Instructor must ensure that all personal protective equipment, apparatus, and equipment to be used for the test shall meet or exceed applicable NFPA Standards or their equivalent. Supervising Evaluators shall not administer any examination where those standards have not been met and shall immediately contact the Division of Fire Safety with such information.
- b. The host agency, where the test is to be conducted, has the ultimate responsibility for the safety of all parties involved in the testing process. A Safety Officer shall be selected from either the support staff or from the available members of the fire department who are not testing. This Safety Officer should be an individual with sufficient training and experience to determine potential safety problems and take corrective action.
- c. A safety testing plan will be completed by the Safety Officer and the Supervising Evaluator. Once completed all students, evaluators and support staff will be briefed on the safety testing plan prior to the commencement of any practical skills testing being conducted.
- d. The Supervising Evaluator and Safety Officer shall brief all assisting evaluators and support staff on specific safety precautions and procedures for certain skills. The Safety Officer shall operate in a roving fashion to ensure that all evolutions are being conducted in a safe manner. The Safety Officer has the authority, regardless of rank, to stop any activity immediately if a dangerous condition or act is observed. Any individual involved with the testing process who observes a potentially hazardous condition must report it to the Safety Officer or an evaluator.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- e. All injuries shall be reported to the lead instructor and/or lead evaluator at the first available opportunity. For injuries requiring medical treatment beyond basic First Aid, the injury must be reported to the Division of Fire Safety at the first available opportunity.

2. Practical Skills

- a. Practical skills tests are generated by the Division of Fire Safety. All practical skills are required to be tested for the Core, Aerial and Mobile Water Supply levels.
- b. Driver Operator Pumper practical skills are randomly selected from the course practical skill booklet. A random skill selection is mailed to the Supervising Evaluator in a sealed envelope. Benefits of a random selection ensure the students must be prepared for any skill from the appropriate NFPA standard.
- c. Students must successfully demonstrate the practical skills from the random selection during the Practical Skills Exam in the presence of a certified practical skill exam evaluator.

3. Pre-test Briefing

- a. The Supervising Evaluator shall conduct a pretest briefing with all assisting evaluators. This briefing shall include the following information:
 - 1. A review of the practical skills to be tested.
 - 2. A review of the acceptable test performance criteria.
 - 3. A review that all evaluators must refer to the skill checklists and determine if the candidates follow the steps and techniques listed in order to pass the skill.
 - 4. A review of the proper completion of any forms used in the evaluation.
 - 5. A review of the procedures to be used for handling questions, problems or failures which may arise during testing.
 - 6. The completion of the “Evaluator Code of Ethics” form for each evaluator.
- b. Students must complete and pass all skills to be eligible for certification.
 - 1. To ensure evaluator consistency all evaluators must refer to the skill sheets and determine if the candidates follow the steps and techniques listed in order to pass the required skills.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

2. All of the skills listed on the individual skill sheets must be completed to pass the skills.
 - c. Through training and experience evaluators may know alternative techniques for skills, it is mandatory that candidates perform the skills as specified on the skill sheets.
4. Student Roster Sign-In and Pre-test Briefing.
- a. The Supervising Evaluator will require each student to submit a state or federal issued ID for review prior to the student completing the sign-in roster.
 - b. The student will need to complete a sign-in roster for each discipline of certification the student will be performing practical skill testing for.
 - c. After all students have signed-in for practical skill testing, exam evaluators are to read the skill exam instructions containing the following information with the students prior to beginning the Practical Skill exam:
 1. Each candidate must be prepared to take appropriate protective equipment to each skill station.
 2. Each candidate is allowed two attempts to successfully demonstrate a given skill.
 3. Student shall be notified confidentially of their pass/fail status on each skill. Results must not be posted for public viewing.
 4. The Supervising Evaluator cannot limit the number of stations which a candidate may have a second attempt.
 5. Requests for a second attempt on a failed skill station must be directed to the Supervising Evaluator.
 6. The second attempt shall be done with a different evaluator on the same test day.
 7. Students who need a second attempt are not allowed to confer with other candidates, instructors, or evaluators to relearn or practice a skill.
 8. During the second attempt, the candidate retesting will only be required to repeat the skills within the area of the skill originally failed, not the entire skill sequence.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

9. Should the student fail the second attempt of a practical skill, the student would be deemed as failed the practical skill exam and would not meet the requirements for certification eligibility.

10. Should the candidate fail the practical exam, he or she will be required to take an approved Driver Operator course again before being allowed to test for the same certification level. The student shall be required to successfully complete an approved course and practical skills course before applying for the written certification and practical skills exam.

5. Administering the Practical Skill exam

- a. Practical Skill stations should be arranged as to prevent students from observing stations they have not yet completed. Students are not permitted to watch as skill stations are set up. Students must not be allowed to watch as other students are evaluated on their practical skills.

- b. To ensure evaluator consistency all evaluators must refer to the skill sheets and determine if the students follow the steps and techniques listed in order to pass the required skills. All of the skills listed on the individual skill sheets must be completed to pass the skills exam.
 1. Prior to the student performing the assigned practical skill at a skill station, the evaluator will hand a copy of the selected skill sheet to the student for their review.
 2. The evaluator will allow the student a 1 minute review of the skill sheet.
 3. After completing the skill sheet review, the evaluator will then take back possession of the skill sheet given to the student.
 4. When the student is ready, the evaluator will read the instruction statement to the student and have the student perform the skill.

Although through training and experience evaluators may know alternative techniques for skills, it is mandatory that students perform the skills as specified on the skill sheets.

6. Upon Completion of the Driver Operator Practical Skills Exam

- a. The Supervising Evaluator collects all testing materials from the students.

- b. The Supervising Evaluator reviews the student's testing materials to ensure all required skills were tested and pass/fail status correctly indicated.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

- c. After reviewing and verifying each student's testing documents, the Supervising Evaluator signs each individual's Skills Test Summary and indicates whether the student has passed or failed the exam.
- d. Each student must sign his or her individual Skills Test Summary at the conclusion of testing. This signature verifies the student was notified of their pass/fail grade.
- e. Following practical skills testing, the Supervising Evaluator will return all testing documents to the Division of Fire Safety within 7 working days following the test.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Driver Operator Certification

Driver Operator certification is granted to those individuals who meet the required qualifications and successfully pass the certification written and practical skill exams. The requirements for Core, Pumper, Aerial and Mobile Water Supply are based on NFPA 1002-2017. Applicants seeking certification at the Driver Operator Pumper, Aerial or Mobile Water Supply levels must first show documentation of having met the requirements for Driver Operator Core (Chap 4) Level certification.

All qualifications must be met and documentation supplied to the Division of Fire Safety prior to admission to the certification examination. **Applicants have one year from the time of course completion to complete the certification process.**

VII. Applicant's Requirements for Driver Operator Core Certification

Certification as Driver Operator Core Level will be issued to those individuals who have met the following guidelines and provided documentation verifying:

1. Complete the enclosed "Application for Written Certification Testing" including completing the "Authorization for Release of Information" section. Application and authorization must be signed and complete.
2. Successful completion of a Division of Fire Safety approved Driver Operator Core Course as verified by the course Lead Instructor.
3. Must be certified at the Fire Fighter I level.
4. Applicant must be a resident of Missouri, or employed within the State.
5. Must possess a valid Missouri driver's license or a valid state or federal identification.
6. Applicant must attain a score of 70% on the state certification written exam.
7. Applicant must have successfully passed the Driver Operator Core practical skill exam.

The AHJ must attest to the applicant's meeting additional requirements by submitting a completed Driver Operator Core Local Verification Form. The verification form is located in the applicant's skill book and requires a department head or designee signature.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

VIII. Applicant's Requirements for Driver Operator Pumper Certification

Certification as Driver Operator Pumper will be issued to those individuals who have met the following guidelines and provided documentation verifying:

1. Complete the enclosed "Application for Written Certification Testing" including completing the "Authorization for Release of Information" section. Application and authorization must be signed and complete.
2. Successful completion of a Division of Fire Safety approved Driver Operator Pumper Course as verified by the course Lead Instructor.
3. Must be certified at the Fire Fighter I and the Driver Operator Core level.
4. Applicant must be a resident of Missouri, or employed within the State.
5. Must possess a valid Missouri driver's license or a valid state or federal identification.
6. Applicant must attain a score of 70% on the state certification written exam.
7. Applicant must have successfully passed the Driver Operator Pumper practical skill exam.

The AHJ must attest to the applicant's meeting additional requirements by submitting a completed Driver Operator Pumper Local Verification Form. The verification form is located in the applicant's skill book and requires a department head or designee signature.

IX. Applicant's Requirements for Driver Operator Aerial Certification

Certification as Driver Operator Aerial will be issued to those individuals who have met the following guidelines and provided documentation verifying:

1. Complete the enclosed "Application for Written Certification Testing" including completing the "Authorization for Release of Information" section. Application and authorization must be signed and complete.
2. Successful completion of a Division of Fire Safety approved Driver Operator Aerial Course as verified by the course Lead Instructor.
3. Must be certified at the Fire Fighter I and the Driver Operator Core level.
4. Applicant must be a resident of Missouri, or employed within the State.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

5. Must possess a valid Missouri driver's license or a valid state or federal identification.
6. Applicant must attain a score of 70% on the state certification written exam.
7. Applicant must have successfully passed the Driver Operator Aerial practical skill exam.

The AHJ must attest to the applicant's meeting additional requirements by submitting a completed Driver Operator Aerial Local Verification Form. The verification form is located in the applicant's skill book and requires a department head or designee signature.

X. Applicant's Requirements for Driver Operator Mobile Water Supply Certification

Certification as Driver Operator Mobile Water Supply will be issued to those individuals who have met the following guidelines and provided documentation verifying:

1. Complete the enclosed "Application for Written Certification Testing" including completing the "Authorization for Release of Information" section. Application and authorization must be signed and complete.
2. Successful completion of a Division of Fire Safety approved Driver Operator Mobile Water Supply Course as verified by the course Lead Instructor.
3. Must be certified at the Fire Fighter I and the Driver Operator Core level.
4. Applicant must be a resident of Missouri, or employed within the State.
5. Must possess a valid Missouri driver's license or a valid state or federal identification.
6. Applicant must attain a score of 70% on the state certification written exam.
7. Applicant must have successfully passed the Driver Operator Mobile Water Supply practical skill exam.

The AHJ must attest to the applicant's meeting additional requirements by submitting a completed Driver Operator Mobile Water Supply Local Verification Form. The verification form is located in the applicant's skill book and requires a department head or designee signature.

DRIVER OPERATOR – CORE, PUMPER, AERIAL, MOBILE WATER SUPPLY

Guide for Lead Instructors, Practical Skill Evaluators and Certification Booklet

XI. Certification Written Test Requirements

Students must score 70% or better on the state written certification examinations to pass.

The Driver Operator Core, Aerial and Mobile Water Supply exams consist of 50 multiple choice questions and must be completed within one hour. The Pumper exam consists of 100 multiple choice questions and must be completed within two hours.

For Driver Operator Core, Pumper, Aerial and Mobile Water Supply, each question is referenced to NFPA 1002-2017, *Standard for Driver Operator Professional Qualifications* and the following source:

1. *IFSTA, Pumping and Aerial Apparatus Driver/Operator, 3rd Edition.*

Students can prepare for the exams through completion of the appropriate course and reviewing the above reference. Applicants must take and pass the certification exam within one (1) year of completing the appropriate course.

Sample Test Question

1. The driver operator primary objective is to:
 - A. do the job safely
 - B. research and buy the safest equipment
 - C. practice until it hurts
 - D. perform rescue at all costs

In the event of failure:

1. A student who has failed the written exam on the first attempt may retest at a later date. A student may schedule a retest by submitting an "Application for Written Certification Testing". Students may retest during a scheduled regional exam. A different version of the exam will be administered.
2. Should the candidate fail the written certification exam on the second attempt, he or she will be required to take the appropriate approved Driver Operator course again. The student shall be required to successfully complete an approved course and practical skills before applying for the written certification and practical skills exam.
